R. Nallakannu

Software Developer & AI/ML Enthusiast

Computer Science Engineering graduate (2026) with hands-on experience in software development, Artificial Intelligence, Machine Learning, and computer vision. Skilled in Python, Java, Flask, MongoDB, REST APIs, YOLOv8, and OpenCV. Completed an AI/ML internship at MATT Engineering Solutions along with mobile app and web development internships. Key achievement: built an AI-powered ANPR pipeline that automates bus attendance and live tracking for passengers.

WORK EXPERIENCE

Artificial Intelligence & Machine Learning Intern

June 2026 - July 2026

MATT Engineering Solutions, Nagercoil

- Completed a 6-week internship focused on AI and Machine Learning, gaining hands-on exposure to applied AI/ML workflows and model inference tasks.
- Demonstrated professionalism and consistent progress while completing assigned AI/ML tasks under mentor guidance.

Mobile App Development Intern

July 2025 (2 Weeks)

AK Infopark, Nagercoil

- Developed Android applications using Java and Android Studio, working with SQLite, MVC architecture, Fragments, RecyclerView, and Intents.

Web Development Intern

March 2024 (1 Week)

MSquared, Trivandrum

- Built responsive web pages using HTML, CSS, and JavaScript, and practiced Git/GitHub version control and Agile collaboration.

KEY PROJECT

Smart Bus Automated Attendance & Live Tracking System

2025 - Ongoing

Python, Flask, MongoDB, YOLOv8, OpenCV, Tesseract OCR, Socket.IO, Google Maps API

- Built an AI-powered ANPR pipeline using YOLOv8 and OCR to detect vehicle number plates and automate bus attendance.
- Integrated computer vision inference with Flask and MongoDB to convert detected plate data into attendance workflows and records.
- Implemented real-time GPS tracking using Socket.IO and Google Maps API for live passenger-facing updates.
- Developed admin workflows for fleet management, driver approval, scheduling, analytics, and reporting.

SKILLS

Technical Skills:

- Python
- Java, C, JavaScript
- Flask, REST APIs
- MongoDB, MySQL, SQLite

AI / Computer Vision:

- YOLOv8, OpenCV
- Tesseract OCR, ANPR
- Object Detection

Frontend:

- HTML5, CSS3, Bootstrap
- React.js (Basics)

Tools:

- Git, GitHub, VS Code
- Postman, Netlify, CI/CD

EDUCATION

Amrita College of Engineering and Technology

B.E. Computer Science Engineering

Tirunelveli, Tamil Nadu | 2022 - 2026

CGPA: 8.0/10

CERTIFICATIONS

- NPTEL - Python for Data Science, IIT / Govt. of India (2024)
- Agnirva Space Internship Program - Space Tech & AI/ML (2024)
- Udemy - Full Stack Web Development Bootcamp (In Progress)
- MATT Engineering Solutions - AI & ML Internship Certificate
